

I. Transparency

1. Equal Opportunity : Each trader would be allocated a fixed amount upon entering a contest. This amount would be the same for all the traders across all the contests and every trader would have the same access to the players irrespective of the contest.
2. Fixed magic trades : Each trader to be allocated a fixed number of magic trades to trade during the match. This would allow traders to create pre-match and in-game strategy to create their best portfolio.
3. One-match, One portfolio : Each trader is allowed to make only one portfolio per match, thereby being allowed to enter each contest only once, ensuring fair competition for everyone.
4. Curtailing unfair practices : Our live match trades get executed post 25 secs of placing the trade to ensure that traders with access to early match feed due not have an undue advantage.
5. Winner declaration : To ensure that the game is conducted fairly with transparency and fairness, we follow measures like:
 - a. Provide contest leader-board : Contest leader-board would provide the traders with real-time insights on their current standing in the contest and allow them to gauge their winning chance and use Magic trades accordingly.
 - b. Check other traders' portfolio : Post match, traders can check the portfolio of other traders and never worry about the fairness of the game.
 - c. Same-day payouts : Any winnings/payout would be credited **instantaneously/within 24 hours** to the wallet post declaration of winners.
 - d. Reliable match scoring : Scores for each match are sourced from a third party vendor providing accurate and real-time data to ensure smooth functioning of the stock exchange.

II. Trust

1. Verified Users : We strive and ensure only human traders (no bots) are allowed, for which strict policies and protocols have been setup. We also verify the users while withdrawal of their winnings by verifying their bank details and KYC documents – which are **collected** and verified by the respective authorities.
2. Safe payments : We work with a trusted third party payment gateway with 3-D secure authentication to ensure safety and security of all financial transactions. We do not store your credit/debit card details with us.
3. Employee restrictions : We do not allow our employees to participate in any paid contests.
4. Legal : SSE is a skill based game in accordance with the Indian laws. Our platform does not encourage cheating and hence, gives no scope for using cheat-codes which might give a trader any undue advantage.

III. Responsibility

1. User info privacy : The KYC and bank account details provided would only be used to verify the trader and would not be provided to any individual or company by SSE.
2. Responsible play :
 - a. Traders below 18 years of age would not be allowed to play paid contests
 - b. Traders would be notified on losses above INR 30,000 (across all contests)

- c.** Traders can participate in a maximum of 100 paid contests
- 3.** No cash transactions : We strictly do not allow or encourage cash transactions on SSE
